"THE ONE PAPER IN MOST HOMES--THE ONLY PAPER IN MANY HOMES"

VOL. LXII.

HICKMAN, KENTUCKY, THURSDAY, SEPTEMBER 15, 1921.

NO. 15.

PLANNING FOR THREE BIG DAYS

Premium List for Community Fair in This Week's Courier.

Plans have been laid for the big Community Fair in Hickman on October 6, 7, and 8, and the committees appointed at the meeting last week of the Commercial Club has begun to get busy in doing their share of the work which attaches to putting it over in a big way.

The premium list, which includes about \$1,500 in premiums is being published, and will be found on another page of the Courier.

Each day of the fair has been designated as a special day, the first being Home Products and Live Stock Day. Friday will be School Day and on Saturday comes Athletic Day, when the athletic contests between individuals and schools will be held.

Lunch stands will be under the control of the Parent-Teachers' Association and concessions from them will entitle others to conduct these stands.

YOUNG COUPLE IN SURPRISE WEDDING

Rob Copeland and Miss Dorothy Moore Married in Union City.

A wedding of much interest and which came as a distinct surprise to their host of friends in the city was that of Miss Dorothy Moore to Rob Copeland Saturday evening. The couple drove over to Union City where the ceremony was performed and telephoned the news back to their parents before returning to the city.

The young bride, who is eighteen years of age, is the only daughter of Judge and Mrs. F. S. Moore, of this city. She is a bright, charming and accomplished young lady, and had begun her senior year in the Hickman High School this year, where she had gained the reputation of one of the most brilliant students in the school by her natural ability and attention to her studies. She returned to school Monday morning where she will continue to pursue her studies.

The groom, a young man of 20 years, is the only son of Mr. and Mrs. Will Copeland, and is a young man of excellent prospects, being at present employed with the local express office, which position he has held for some time. Both young people are exceedingly popular with every one who has been associated with them, and The Courier joins with their many friends in wishing them a most joyous married life.

LAST EXCURSION OF THE SEASON

Large Crowd of Pleasure Seekers on Capitol Monday Night.

The Streckfus Steamboat Line's big excursion boat, the "Capitol" carried over 500 passengers on the last excursion of the season Monday night. The big boat was secured, as on the other occasions when she has been here, by the Hickman Lodge of Elks, and the excursion was given under their auspices.

This is the largest excursion boat among those appearing at Hickman, and its coming is always awaited with eager anticipation by pleasure seekers of Hickman and the surrounding towns. Excellent weather on the evening of the excursion with the natural attractions which the boat offers combined to render this the most enjoyable affair of the kind this season.

Large crowds from Fulton, Union City, Martin, Tiptonville, and other neighboring towns, swelled the attendance, which was recorded at 512.

The Capitol has the largest dancing pavilion of any of the boats on this part of the river. Its lighting system is beautifully arranged, and the music furnished by the Capitol Harmony Syncopators, and some of the best dance music enjoyed by the devotees of that diversion here this year, added to the pleasure of the excursionists.

The Capitol has been touring the upper Mississippi all summer and carried large crowds out of every city as far north as St. Paul. The big boat is now en route to New Orleans for the winter season again.

FREE CLINIC FOR TRACHOMA

Government Expert Comes to Hickman in October.

The biggest and certainly one of the most needed pieces of work ever undertaken by our local Public Health Service is the big free trachoma clinic which will be held in Hickman in October. Through the endeavor and interest of Dr. Hubbard and the two nurses here the services of a government expert, Dr. McMullen, perhaps the country's foremost authority on trachoma, have been secured. He will be in Hickman October 11 and 12, and plans are under way to open a big hall fitted with the necessary cots where he can treat with ease and dispatch all of the many children of the

country who are afflicted with this terrible and very infectious eye disease. Positively no charge will be made of any kind, and one treatment will be all that is necessary. Dr. McMullen may wish to keep the patients twenty-four hours and in that case the parents will be asked to feed their own children, but that will be all that is required of them, unless such as have cots of their own wish to bring them.

A most amazing amount of trachoma has been found during the recent examinations of the county schools, a dozen or more cases in each school, and so infections, or "catching" is the disease that one case can easily give it to a whole roomful or schoolful. By far the worst situation was discovered this week at Bondurant, where in a crowded room of about seventy, only four or five were found who did not have trachoma. Several of the children were in evident, constant discomfort, rubbing their eyes, peeping through swollen,

red lids, barely able to read, and one little girl was almost blind with it.

If nothing is done for these children they will, ultimately be blind for while trachoma is a disease of the lids, it does in the end through the inflammation, affect the eyeball of course. Glasses do not help trachoma.

Being a disease of the eyelid, it has to be treated; the little "seeds" which develop on the lid removed.

It is the greatest blessing that it can be treated and cured for it is fast growing to be one of the greatest scourges to our land and especially to our state, Kentucky is full of it, particularly in the mountain districts, and there is even talk in other bordering states of quarantining against Kentucky on account of it.

No steamer is allowed to land in any American port without a medical inspection for trachoma and if a person is found with it, he or she is turned back and not allowed to come into the United States for two years after be-

ing cured. Such precautions prove its seriousness and danger, though the people of Hickman and the vicinity have not waked up to it yet. They must, however, if the eyesight of their children is to be saved. The percentage in this county is so great that we will all have it soon unless something is done.

All praise then to our County Health Officials who have gotten Dr. McMullen to come to Hickman and made this free clinic possible. It means no more money for our doctors and nurses but it does mean much extra hard work.

They are glad to do it but they want cooperation and help. Surely every person in the vicinity should be grateful for the opportunity and not only bring gladly any members of their own family who have it, but urge all others to come whom they believe to be affected. The clinic is not for children only. Any grown person will be treated too. It is for old and young, rich and poor alike. Grown people who

suspect that they have it are asked to come and find out. It won't do any good to clean up the disease among the children if they are to go right back to their own homes and get reinfected from parents and older brothers and sisters. It won't cost anything to come so whether Dr. Hubbard has seen and examined you or not, do see Dr. McMullen on the 11th or 12th of October. If he says you haven't it, you are just that much better off; if you have it you can be cured; if you have it and don't come you risk a future of pain, helplessness and unhappiness. Loss of eyesight is next to loss of life.

The United Charities are planning a big street carnival to be held here probably next week. Plans have not been completed and it may be that arrangements will be made in time to hold it next week, but it will be held some time before the Community Fair.

SANTA MARIA HERE MONDAY

Big Passenger Hydroplane Has Capacity of Eleven Besides Crew.

The big passenger hydroplane, Santa Maria, has come into view Monday afternoon, and after circling over the city, landed on the river in front of Hickman, with several hundred spectators assembled on the bank to watch the maneuvers. After cruising about on the river for a few minutes the anchor was cast, and motor boats from the bank went out to meet the big craft. The passengers and crew were brought ashore, and efforts were made to secure passengers here for short flights, but a sufficiently large number could not be secured. After about two hours in Hickman, the passengers and crew again boarded the plane and the journey was resumed, a fresh supply of gasoline having been purchased here. Memphis was the destination for the day.

The Santa Maria is a privately owned vessel, being the property of the Aeromarine Company of New York City. She is one of the largest air vessels which has ever made the trip of 105 feet, and a capacity of eleven passengers besides the crew. She is driven by two Liberty motors, can attain a speed of 80 miles an hour, and burns a gallon of gasoline a minute. A gasoline tank of 300 gallons capacity is carried, giving sufficient fuel for a five-hour cruise. She was formerly a United States Navy seaplane, and was later in the United States mail service from Key West to Havana, Cuba.

On the present trip the plane has flown from Havana as a starting point to Key West and thence to New York City, with a stop at Washington. From New York the flight was resumed to Montreal, thence by way of the Thousand Islands and following the course of the St. Lawrence River and the Great Lakes to Detroit; thence up Lake Huron and down to Chicago, and down the Illinois and Mississippi Rivers to St. Louis. From St. Louis, the plane went to Cairo and on to Hickman. From Hickman the itinerary as planned included Memphis and New Orleans and intermediate points, and from New Orleans the last lap of the flight will be made to Vera Cruz, Mexico, where the return journey will be begun. This trip is undertaken by the Aeromarine Company at its own expense to demonstrate the practicability of flying.

The crew of the Santa Maria consisted of Edwin Musick, the pilot, and E. Nigard and Wm. Richards, mechanics. Besides the crew, the following passengers were aboard: E. D. Osborn, W. W. Wyman, an official of the Aeromarine Company, E. J. Riley and the Hon. F. C. Hicks, congressman from New York, and chairman of the congressional committee on Naval Aviation. He has flown over Paris and London and many places abroad as well as in the United States in all types of planes, and his interest and experience in the air service induced his appointment. His strong belief in aviation as a factor in transportation in the immediate future has prompted him in making the trip. When interviewed by a representative of the Courier he said: "Other countries have established air routes and are maintaining regular schedules for passenger traffic. The United States is backward in this respect, but as we gave to the world the air craft, so America should give to the world the best example of aviation in its fullest development. The purpose of this trip, undertaken entirely at the expense of the Aeromarine Company of New York, is to prove the feasibility of aircraft by a practical demonstration of its usefulness. We appreciate the cordial welcome extended to us by the mayor of Hickman and the other prominent gentlemen who joined in making us at home in the city."

FOOTBALL PRACTISE ON.

For the first school work has started towards the development of a varsity football team. Practise started Monday and has continued every afternoon of this week. The work-outs have consisted of passing, tackling, line charging, simple formations, line bucking and punting. The team will be unusually light, not averaging 138 pounds, but what is lacked in weight, it is hoped to make up in speed, for the team has prospects of being an unusually fast one. The privilege of using the Mengel park has been secured, and this field will be used for practise now.

As yet Coach Boone has been unable to pick his first team from the number who are candidates for positions on the eleven. His backfield will be light but fast, and will average about 130 pounds. Scrimmaging and practise between the first and second teams will begin Friday. It is planned to have a game here during the Community Fair, if it can be arranged. The schedule has not been arranged but communications are being had with Union City and Fulton to secure games with their high schools. It is hardly probable that the Hickman High team can show up to the same advantage with schools which have had teams for years past, since this is the first attempt to develop a team at the local high school, but the local enthusiasts of the pig skin game can get out and pull for the team, and give them all the encouragement possible.

CAN NOT HIDE WEAKNESSES

Philadelphia Writer Draws a Moral From the Life and Works of Two Men

There were two men. One, in order to hide his faults from the eyes of the public, surrounded himself with many friends, better than himself in character.

The other man had a single friend, as sterling in character, sympathies and perceptions as himself.

In the first case the man fooled the public, which seemed to see him through his friends.

In the second case, however, the man and his friend were misunderstood and neglected by the public.

The first man, during life, was praised and flattered for, being very wealthy, he could very easily purchase empty words, but not loved or respected.

The second man, after death, was at last understood, respected, honored and loved, but to no avail; for he could not be brought back from the grave.

It was a case of the same old story—an unjust, blind world.

Moral—A man will not hide one's weaknesses.—Charles Fingerman, in the Philadelphia Record.

UNEMPLOYMENT SAID TO BE ON DECREASE

Many Cities Report Building Projects Under Way Will Bring Relief.

Unemployment is declining and public and private projects now under way will bring further relief, according to information obtained from cities in all sections of the country.

Many cities and states have taken steps to meet the problems of the jobless, which has been of serious proportions for a length of time, and others are about to, following the example set by the federal government in calling an unemployment conference. Secretary Hoover has completed plans for that meeting which he has submitted to President Harding.

Little or no acute suffering has been reported from large cities and indications are that this condition will continue.

Many cities report a decided decrease in the number of unemployed while reports from these cities give the number of jobless as estimated by officials and chambers of commerce in touch with the situation to be far less than generally supposed.

INSPIRATION ON THE WING

Great Compositions That Seem to Have Been Awaiting the Moment of Their Birth.

Charles Kingsley returned home one night rather dejected because a sermon he had preached that day in London had proved a little too "socialistic" for the incumbent. Instead of going to bed he paced back and forth in front of the fire and his wife, knowing he was composing, left him and retired. In the morning he recited to her that moving lyric:

"Three sailors went sailing out into the west, Out into the west as the sun went down."

There is a tablet in the porch of Wrexham church to the memory of Bishop Heber, which records that the most popular of all missionary hymns was composed in the town. Reginald Heber, who was then vicar of Hodnet, happened to be staying at the vicarage with his father-in-law, Dr. Shipton, dean of St. Asaph's, who was to preach a missionary sermon on the Sunday.

Heber and other friends were assembled in the library on the Saturday, when the dean asked his son-in-law if he could write something for the service next morning. Heber retired to the farther end of the room for the purpose and at the end of 15 minutes he read the first three of the four verses of which the famous hymn, "From Greenland's Icy Mountains," consists.

His hearers were delighted, but Heber said the sense was not complete, and devoted another five minutes to the fourth stanza.

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTE AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!

SEPTEMBER DOCKET IS EXTRA HEAVY

140 New Civil Suits Have Been Filed Since Last Term.

The September term of the Fulton Circuit Court which meets next Monday will be required to handle more cases than any previous term of the court according to court house officials. This will be the last appearance of Circuit Judge Bunk Gardner during the present term, as the January term will be conducted by Circuit Judge-elect W. H. Hester.

Eighty-two continued cases are on docket with 140 new civil suits filed since the last term of court. These with the cases to be tried in the Fulton branch of the court will probably consume the entire three weeks which is allowed during the September term. The first week will be devoted to the Hickman cases, the court moving to Fulton the next week, and returning to Hickman for the third week.

Cases on the criminal docket for trial are:

For Monday, Sept. 19.

Commonwealth vs. — John Tolliver, appeal.

J. A. Younger, carrying concealed and deadly weapons.

Oscar Seay, assault and battery.

John W. Younger, malicious shooting.

Fannie Johnson, wilful murder.

Land Davis and Vester Davis, wilful murder.

R. B. Marshall, carrying concealed and deadly weapons.

For Tuesday, Sept. 20.

Commonwealth vs. — W. S. Allen, malicious shooting.

John Henry Guinn, drawing and pointing deadly weapon.

Susie Overton, wilful murder.

Hosie Otterbridge, wilful murder.

Gennie Davis, wilful murder.

Arthur Smith, hog stealing.

Mud Pie Census.

Doctor Russell, who tells us that in a spoonful of good arable land there are more living organisms than there are people in the United Kingdom, has probably not wasted his time making an accurate count, but there is no doubt he is well within the mark, observes the London Chronicle.

A French bacteriologist recently caught his little son playing with a mud pie, and, borrowing a small portion of the mixture, carefully analyzed it in his laboratory. He found it teeming with microbes, but only took a census of the harmful varieties.

He found when he had finished his labor that the little bit of the "pie" he dealt with contained the following germs: Diphtheria, 1,800,000; measles, 2,450,000; smallpox, 900,000; lockjaw, 3,600,000; dysentery, 900,000; pneumonia, 505,000; tuberculosis, 620,000. And the total of nearly 11 million was only a percentage of the organisms in the delicacy.

Vacuum Plays Havoc With Boiler.

The usually imperceptible force of atmospheric pressure often reveals itself by some unexpected and peculiar tricks. One of the latest of its pranks was to crumple the shell of a heavy steel boiler in use near Okmulgee, Okla. The steam within the boiler had been allowed to cool, and in cooling condensed. All of the boiler fittings were so tight that no air could get into the boiler to take the place of the steam, which was now very much reduced in volume, and a vacuum was thus created in the shell. The result was that the pressure of the outside air crushed the boiler shell.—Popular Mechanics Magazine.

Auto Matches Jewels.

For the benefit of your wife, you might tell her that, if she wants it, many of the automobile manufacturers will have her 1921 car match her jewels. This is a fad in many sections of the East, where amethyst, garnet, topaz, sapphire and other colors are used in the upholstery, tops and the body made to correspond. In this way your wife will know that her jewels harmonize with the car. Of course, if she hasn't the jewels, she can order the car as she wants it, and then buy the jewels to match.—Chicago Tribune.

EXHIBITING AT FAIRS.

J. W. Mayes, proprietor of the Edgewood thoroughbred Stock Farm, took his herd of thoroughbred Hampshire hogs to Jackson last Friday where he will show them at the Jackson fair. He was accompanied by Coyle Wade, a stock man of Union City, who also took his herd. From Jackson they will go to the Tennessee State Fair at Nashville and finally to the Tri-State Fair in Memphis, showing at both places. Mr. Mayes has a fine herd of hogs and it will be remembered that he took nearly every first prize offered at the Fulton Fair.

The congregation of the First Methodist Church had the pleasure of hearing Dr. J. H. Burress deliver two great sermons Sunday. The Doctor preached at 3 p. m. at Brush Creek and Cayce at 7:30 p. m. Monday. He is editor of The Midland Methodist. The people here gave him 39 subscriptions for his paper and the Cayce church 14. The doctor was delighted.

The Ladies Class of the First Methodist Church entertained the Men's Class and many others at Mr. Seney's on the Gravel Road, last Friday. Near 140 people were present. It was greatly enjoyed. The Men's Class will return the compliment Oct. 10th, at the Church at 6 p. m. They expect a great time.

For skin eruptions, rash, chafed skin, prickly heat, chigger bites and stings of poisonous insects, Ballard's Snow Liniment is an effective application. It heals quickly. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Hickman Drug Co.

Miss Helen Fletcher and Henry Wilkerson, of Mounds, Ill., have returned home after a visit with Miss Helen Walker.

Those wishing their pianos tuned, please see or call me at once as I expect to have a tuner here Monday—Miss Homer Green.

Miss Lois Moore, of Tupelo Miss., is visiting her uncle, F. S. Moore, and wife.

Groceries—Butterworth.

HATS THAT FLATTER

Hats are the finishing touch to the costume, and they make or mar its success. There is a hat for every face, one that will enhance its good points and be kind to its faults. Three widely different models for fall and winter, as shown above, reveal that heads and embroidery are playing leading parts in trimmings and that shapes are soft and becoming.

DRILLING DAY AND NIGHT.

The work at the test well of Romey Mitchell & Bruer at Bondurant, is going forward as rapidly as can be expected under the conditions. Both day and night the crews are at work drilling. Yesterday twenty feet were added to the depth which has been reached. According to the driller the rock is getting a little softer while the showing of oil is much more encouraging than heretofore.

TAX BOOKS READY.

The 1921 tax books for state and county taxes are now ready for collection of taxes. You will please call at the sheriff's office and pay same.

H. Swayne Walker, Sheriff.

Dr. C. W. Culin has returned home from Washington, where he attended a medical meeting.

thence with said road North 2 degrees, 00 minutes West 330 feet to the beginning and containing 2040.0 acres, more or less; also there is within the boundary of the proposed Drainage District 0.43 miles of the Right-of-Way and tracks of the Mobile and Ohio Railroad; also there is within the boundary of the proposed Drainage District the following parts of public roads: Lodgeston and Palestine Road, 0.22 miles; Union Church Road, 0.55 miles; State Road, 1.58 miles; Moscow Road, 0.24 miles; Campbell Bridge Road, 0.59 miles; Cayce and Moscow Road, 0.62 miles; and to show cause why the land or other property owned by you, located in the proposed district, shall not be assessed for the purpose of establishing and organizing said district, and constructing the proposed improvement and the maintenance thereof and why so much of the land and other property owned by you which may be necessary to construct and maintain said proposed improvement shall not be taken or damaged for such purpose. Upon your failure to appear and file objections or exceptions, if any you have, within thirty (30) days from this date, it will be taken for granted and confessed by the Court and all others that you have no objections

to the establishment and organization of said district, or the construction and maintenance of the proposed improvement in said Drainage District. The proposed improvement is described as follows:

The dredging, straightening and deepening of the channel of Little Bayou De Chien and construction of a drainage canal along its course within the boundaries of the district as above described and the construction of the necessary lateral canals thereto, which work will prevent overflows and the standing of water on lands within the district and render lands cultivatable which are not at present capable of being cultivated, will increase the amount of crops on land now cultivated and render the lands more valuable; will decrease the expense of maintenance of the public roads therein and will result in great public benefit to the health and convenience of those living within the district.

Witness my hand as Clerk of the County Court of Fulton County, Kentucky, this the 9th day of September, 1921.

Clerk Fulton County Court.

WOMEN ENDORSE AMENDMENTS

Advisability of Changes In School Laws Discussed By
Mrs. H. G. Reynolds, Federation President

The women of the state are vitally interested in the passage of the two amendments to the Constitution which are to be voted on next November. Mrs. H. G. Reynolds, president of the Federated Women's Clubs of the State, when asked for a statement concerning the attitude of the Federation, said:

"The Kentucky Federation of Women's Clubs in convention, assembled May 1921, unanimously endorsed a resolution recommending the passage of the two amendments which will go so far toward lifting Kentucky from the disgraceful position which she now occupies in the educational statistical tables and pledged the earnest support of their 10,000 members through their personal efforts and their Legislative Committee.

"No thinking person can dispute the advisability of taking the office of State Superintendent of Schools out of politics. The wisdom is so obvious

its needs. Her judgment concerning its educational needs should not be lightly put aside. The mother is entitled to a place in the councils of education, and the real friends of better educational institutions will insist that she take her rightful place on their boards."

SCHOOL TAX HELD
TO BE ENORMOUS

Yet Twenty-Two Times as Much is
Spent For Luxuries.

The taxpayer groans at our enormous school tax. Numerous other people mention the fact that the United States spent almost a billion dollars for public education in 1918.

Is a billion dollars a huge sum to invest in training the brains of the children of the country? The answer to this question of investing a billion in education is answered by a recent statement by the Department of Education at Washington. A portion of the statement is given here:

"According to Government returns for 1920, the people of the United States spent for luxuries in that year \$22,700,000,000; more than 23 times as much as they spent for education only two years before, and six billions, or 30 per cent, more than we have spent for public education in all our history. Expenditures for luxuries in 1920 included among other items:

For face powder, cosmetics, perfume, etc. \$750,000,000
Toilet soaps 400,000,000
Cigarettes 800,000,000
Cigars 510,000,000
Tobacco and snuff 800,000,000
Jewelry 500,000,000
Chewing gum 50,000,000

"It is interesting to compare some of these items with the expenditures for education. The amount paid for face powder, cosmetics, and perfumes is only \$12,000,000 less than the total amount expended for public, elementary, and secondary education in 1918; and within \$50,000,000 of twice the total amount of salaries paid teachers in public, elementary, and secondary schools.

"The amount paid for jewelry is nearly \$100,000,000 more than the salaries of teachers in elementary and high schools in 1918, and is more than the total productive funds of all endowed colleges and universities in that year.

"The \$50,000,000 for chewing gum is 2 1/2 times the total expenditures for normal schools and almost exactly the same as all State and city appropriations for higher education.

"The total cost for tobacco, in all its forms, in 1920, was five times the total of teachers salaries in 1918 and almost exactly the same as the total cost for elementary and secondary education for the three years, 1916, 1917, and 1918. If in some moment of high enthusiasm and patriotic devotion the people who use tobacco had agreed among themselves to smoke two cigarettes instead of three, two cigars instead of three, and two dips instead of three, and had paid to the support of the schools the money thus saved for the year, the salaries of teachers in schools of all grades, public and private, could have been increased by more than 1,920 per cent. For tobacco in its various forms we paid more than we have paid for higher education since the founding of Harvard College in Massachusetts and William and Mary in Virginia."

"The companion amendment is essential to the complete reform of the Kentucky school systems. It required no more support than that accorded it by justice and logic."

After making the above strong statement concerning the two amendments to the Constitution, Mrs. Reynolds continued:

"There is a third point which fits in completely with the proposed reforms and which seems essential to its entire fulfillment and should become a law. The development of the child from six to twenty years is largely the problem of the women. A large portion of those years is spent in the schoolroom. The mother is in close contact with her child and she knows

as to admit of no counter argument. Granted that under the existing hit or miss system a qualified man be chosen—and this is more luck than good aim—what possible opportunity has he to reconstruct the educational system of the State in a single term. Every good thing done may be demolished by the succession to office of a man not in sympathy with his predecessor's ideas, or so poorly qualified as to be unable to carry them out.

"No business executive would put a man in charge of his affairs with the fixed idea of discharging and replacing him at brief stated intervals with a successor chosen blindly from a motley collection of applicants. Yet this idiotic process, which would so quickly be rejected in private affairs, we complacently saddle on the children of our State, our most precious asset and our only hope for the future.

"The amount paid for chewing gum is 2 1/2 times the total expenditures for normal schools and almost exactly the same as all State and city appropriations for higher education.

"The total cost for tobacco, in all

its forms, in 1920, was five times the total of teachers salaries in 1918 and

almost exactly the same as the total

cost for elementary and secondary

education for the three years, 1916,

1917, and 1918. If in some moment of

high enthusiasm and patriotic devotion

the people who use tobacco had agreed

among themselves to smoke two ciga-

rettes instead of three, two cigars in-

stead of three, and two dips instead of

three, and had paid to the support of

the schools the money thus saved

for the year, the salaries of teachers

in schools of all grades, public and

private, could have been increased

by more than 1,920 per cent. For

vard College in Massachusetts and

William and Mary in Virginia."

"I began using Cardui,"

continues Mrs. Burnett.

"After my first bottle, I slept

better and ate better. I took

four bottles. Now I'm well,

feel just fine, eat and sleep,

my skin is clear and I have

gained and sure feel that

Cardui is the best tonic ever

Thousands of other women

REVIVAL AT BAPTIST CHURCH.

A series of revival services has started at the First Baptist Church, beginning last Monday night, the Rev. W. M. Wood assisting the pastor in the meetings. He is preaching twice a day to a good attendance. He is a strong and forceful speaker and has held some of the most important pastorates in the south. The meeting will continue for about ten days more, and the people of the city are cordially invited to attend and hear the strong messages which Dr. Woods will deliver.

FOR YOUNG GIRLHOOD

There is nothing in headwear that
outclasses the fine, soft beaver or
felt hats made for children. Their
beauty and refinement carry them tri-
umphant to every part of the world,
and they are a safe choice from the
first to the last hat for girlhood.
Three of them are pictured here, and
of course their only trimming is a
sash or band of ribbon.

Mrs. Alice Amberg was operated on at the St. Thomas hospital in Nashville Monday. She is reported as improving rapidly from the effects of the operation. Judge and Mrs. W. B. Amberg left Monday morning to be with her.

Mrs. Ardell Johnson, of Jonesboro, Ark., is visiting her sister, Mrs. Lou Naylor. Her son, Leslie, returned the first of the week to Jonesboro, after a two weeks' visit here.

Hickman High School will for the
first time have a girls' basketball team.
Practise has not started yet, but the
girls are very enthusiastic over the

idea.

DR. J. R. LUTEN.

Dr. Joseph Reed Luten, one of Fulton County's most prominent citizens and physicians, passed away Sunday evening, Sept. 11, 1921, at 9:45 o'clock, at his home 302 Carr Street, in Fulton. For the past five weeks Dr. Luten had been critically ill of complications and though the end came not unexpectedly, the entire city mourns with the grief stricken family, in the departure of their loved one.

Dr. Luten was born in Moscow, Hickman County, Ky., March 6, 1843. He was twice married, first to Miss Kate Browder of Fulton, during the year 1868, this union being blessed with four children, three sons and one daughter.

Following the death of his wife he was united in marriage to Mrs. Lillie Nolan Adams, of Fulton, June 6, 1905. At the breaking out of the Civil War, Dr. Luten enlisted in Faulkner's regiment, Capt. H. A. Tyler's Company, of Forrest's Cavalry, in which he served faithfully until he received his honorable discharge and returned home.

In 1881 he was elected to the legislature from Fulton and Hickman counties.

Dr. Luten was an influential citizen, held in the highest esteem by all who knew him. He professed faith in Christ in early life and united with the Methodist church of this city—Monday Fulton Leader.

Funeral services were held at the family residence Tuesday afternoon at 3 o'clock, conducted by Dr. H. B. Johnston, of this city and Rev. E. W. Maxdon, pastor of the First Methodist Church of Fulton.

MISSIONARY SOCIETY.

The Missionary Society of the Methodist Church met in regular session Monday afternoon with an increase in attendance and interest. The subject was on the month's topic: "A Study of Social Needs in Soochow." Several took part in the program and made good talks. We then listened to an interesting talk about our mission schools in Soochow, and the influence they were having on the community, making us feel that our efforts here had not been in vain and each of us determined to be more zealous for the Master.

We meet next Monday at 3 p.m. A special program is being prepared by the president and Mrs. Bess Curnin and we urge the attendance of every member and ask that they bring a visitor. "No man having put his hand to the plow and looking back is fit for the kingdom of God." Luke 9:62. It is our privilege to entertain the District Conference which meets Oct. 13th and 14th, and we want to co-operate with the district secretary and endeavor to make this the best conference we have had. Clara McConnell, President.

SCHOOL NOTES.

A number of educational meetings have been held in school districts over the county for the purpose of discussing the proposed amendments to the state constitution. Good crowds attended the meetings at Graves, where a new and enthusiastic Parent-Teachers Association was in attendance, and at Sylvan Shad and Sassafras Ridge. Health Play was given at Sassafras Ridge which reflected much credit to the teachers and pupils.

Hon. Rainey T. Wells gave a splendid address at the court house Wednesday evening. It is unfortunate that more Hickman people were not sufficiently interested to come out and hear this speech on Better Education. Mr. Wells explained the purpose of the amendments and made an earnest and inspirational speech.

Leading educators and other public spirited people over the state, Democrats and Republicans alike, approve the proposed changes. They feel that we could hardly make matters worse than they have been and that there is an opportunity to better conditions. There are those who say that the State Superintendent's office cannot be taken out of politics. It is certain that it cannot by passive negation. Twenty of the thirty-four states in which the superintendent is chosen by popular election are agitating a change of method to that of appointment by state boards. The proposition in this state is that the legislature provide for an appointive board of nine members, not more than five of whom shall belong to one party. This board shall have the power to elect the superintendent of public instruction. This method is similar to the election of the heads of the university and normal schools.

Gov. Morrow has already published the names of the seven men and two women who are chosen for the first board. To show his good faith in not appointing for political reasons, he has selected five Democrats.

The painting of doors and window
frames deserves study. A low-roofed

"THE STORE THAT LEADS"

THE FACTS:

In 1917 we introduced Gilster's Best Flour to the people of Hickman.

Since that time our trade on this wonderful brand of flour has been so great as to create dissatisfaction among our competitors.

The Gilster Milling Co., being millers on a large scale, put out quite a number of brands, and the result has been that these lower grades are being sold as Gilster's Best.

Please bear in mind that Reid Bros. are the exclusive agents for Gilster's Best Flour, and this popular brand can not be bought elsewhere in Hickman.

When you order flour call for

GILSTER'S BEST

and see that you get it.

PREDICT HARD WINTER

Various weather experts have been predicting an early and unusually severe winter, and their opinions are backed up by the animals in the parks. Squirrels are storing up unusually large quantities of nuts. The prairie dogs, a full month ahead of time, are carrying food down into their diggings, and plenty of it. Robins and black-birds are flocking together, presumably preparing for migration a month earlier than usual.

Raymond L. Ditmars, curator at the Bronx zoo, New York, admits the animals are making preparations for winter much ahead of the usual time, but he inclines to the belief they have been deceived by the misbehavior of the seasons. Spring came in a month ahead of time this year, and now the leaves have about reached the end of their summer life. Mr. Ditmars says we may have an unusually long autumn with a protracted period of Indian summer, or we may jump ahead into an early and a very severe winter.

The animals and birds, however, are taking no chances.

TAILORED STYLES

With lines that follow those of the natural figure, with becoming new style points in its sleeves and collar, and just enough of rich decoration in its embroidery and sash, this tailored frock for fall and winter is destined to be beloved of its wearer.

The Mengel Company some time ago made a reduction in the rent on their houses, erected on their property last fall. These were renting for \$2 per week, and on account of the decline of wages were reduced to \$1.50 per week.

CONCURS AGAIN

Editor Courier: Allow me space in your highly appreciated paper to say that I highly appreciated paper to say that I knew Ben Hale was a man and successful in business, but I did not know that he had so much force with the pen. Neither did I think we had a man in town that would risk writing so many serious facts. I hope we will hear from him often. Our town is worthy of men like him—not afraid nor ashamed to let the truth come out. His home is here, his business is here, his interest is here. Why should we all not say or do something to bring about a reformation. I for one think it very kind in the editor of The Hickman Courier to publish facts to help us see our errors. We Hickman people ought to be very proud of our town.

It might be asked since Hickman is so highly favored, why has she not men of letters. I am sure that her material greatness is not yet matured. We will have to wait until the November election. Then it is that we are going to try to put into office men that will give the county and town the finishing touch. The kind of men we need is men who first makes his home the haven of love—men that say yes to the right and no to the wrong—law abiding men, and men that will enforce the law at all hazards.

Two stills were captured during raids last week in Mississippi county, Mo.—one near Deventer and the other south of East Prairie. The stills were demolished with axes and burned, after saturating them with kerosene. A wagon stolen from Circuit Clerk Clarkson of that county was also found, the moonshiners using it to transport their illicit product.

SUIT FOR DAMAGES

A very interesting case is on trial this week in Circuit Court, the suit of J. T. Davis against Dr. W. A. Nailling for \$15,000 damages. Davis' little son was accidentally shot in the shoulder while handling a gun. The lad was brought to the Nailling hospital and an operation performed. Local physicians advised another operation later on, and the lad underwent another one at a Dyersburg hospital. Moore & Hudgens represented Davis; Pierce & Fry represent Nailling, and Henry Fisher of Fisher of Jackson, Tenn., represents the bonding company that insures against all damages resulting from just such suits as this. The attorneys are all putting up a hard fight and there seems to be a good deal of feeling in the case. So far as we can see, every inch is a battle ground.—Union City News Banner.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

HUGE CORN CROP IN MISSOURI

Missouri will produce 195,665,000 bushels of corn on 6,153,000 acres this year, according to the advance estimates of the September crop report issued by E. A. Logan and Jewell Mayes of the Missouri Co-operative Crop Reporting Service. This yield compares favorably to the yield of 1920, which was 198,880,000 bushels on 6,315,000 acres, the larger acreage accounting for the difference in the yield.

Only three years of the last 10-year period have exceeded the yield this year, according to the report. The years were 1920, 1917, and 1912, but each of these years showed a considerably larger acreage than in 1921.

Corn conditions were 86 per cent normal on September 1, according to the report, which forecast a yield of 315 bushels per acre. The major portion of the crop will be out of danger of frost within two weeks. The reports from over the state show that some damage occurred from windstorms during August.

\$100,000 LOSS IN GREENFIELD FIRE

Fire of an unknown origin early Sunday morning destroyed an entire business block in Greenfield, causing an estimated loss of \$100,000. Several business houses, the postoffice and the city hall were among the buildings destroyed. Two volunteer firemen were slightly injured by falling walls.

The fire was discovered at 2 o'clock in the farm implement warehouse of N. J. Brock & Co. Three volunteer companies responded to the alarm, but the flames spread rapidly. Efforts were devoted principally to saving the surrounding blocks.

The flames had burned out by 5 o'clock and the district was in ruins. Practically every one of the six buildings in the block is a total loss.

Candles on Birthday Cakes.

The custom of placing candles on a birthday cake—one for each year—comes from Germany. The Germans placed a thick one in the center, called Lebenslicht, the light of life. Only he or she who declares his or her birthday may put out the light of life; it is unlucky if done by any other member of the family. The lights are symbols of life and its portions the years. For persons advanced in years one candle must do duty, as otherwise too many would be required.

INGENIOUS AND MODISH

Among the new suits for fall and winter there are none in which the season's style features have been used to better advantage than in the model illustrated. Its coat is of medium length, with embroidered panel at the front and the much-admired bell sleeve. It is trimmed with a band and a collar of fur.

To Stop a Cough Quick

Take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from Cough or Croup.

The healing effect of Hayes' Healing Honey is due to the fact that the active ingredient of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

BE OPTIMISTIC

Here's Good News for Hickman Residents.

Have you a pain in the small of the back?

Headaches, dizziness, nervous spells?

Are you languid, irritable and weak?

Are you annoyed by urinary disorders?

Don't despair—profit by Hickman experiences.

Hickman people know Doan's Kidney Pills—have used them—recommend them. Ask your neighbor!

Here's a Hickman resident's statement:

Mrs. Virda McKinney says: "I certainly can speak a good word for Doan's Kidney Pills, for they have always done me good when I have had attacks of kidney trouble. My kidneys have bothered me, and I had severe pains in my side and across the small of my back. I had dizzy spells when stooping over to get anything and headaches would follow. I took Doan's Kidney Pills and they cured me of the attack. I advise any one who is troubled with kidney complaint to take Doan's."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McKinney had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

That Royal Tailored
Look!**

The actor is America's best dressed man. He believes in dressing the part, on or off the stage. He knows he cannot play the role of success while dressed in the costume of failure.

And contrary to popular impression—the actor is a pretty good business man too—a smart trader and shopper.

He knows where and how to get the most for his clothes dollar.

That's one reason why so many "professionals" buy Royal tailored clothes—and get the best custom-tailored quality.

Royal Tailor Service gives the most that the custom tailor can give, in smart made-to-measure clothes, but charges \$15 to \$20 less than the average custom tailor's price.

**CAIRO EXCURSIONISTS
WERE HERE SUNDAY**

The big Streckfus steamer, Capitol, was here for half an hour Sunday afternoon with an immense party of excursionists from Cairo. The big excursion boat landed here at 1 o'clock and stayed here thirty minutes before returning to Cairo, while the passengers disembarked and spent a few minutes in viewing the city. Many of them were especially interested in the steps which lead up the court house hill, and eagerly began to climb them. Most of those who undertook the task, however, lost their enthusiasm after going about half way up. After their short stay the big craft turned around and began the return trip to Cairo.

Such a Simple Process.

During an examination in Kansas a would-be teacher declared that "An alien may become a citizen by being born in this country."—Boston Transcript.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headaches, Neuralgia, Rheumatism, Earache, Toothache, Lumbarago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monosaccharide of Salicylic Acid.
